COVID-19 update
COVID-19 in India

- First COVID-19 case reported in end January.

- Nationwide lockdown from 25 March 2020; phase-wise reopening of areas outside containment zones effective from 1 June 2020.

- Lockdown and fresh restrictions of varying duration was re-imposed in several containment zones, including Bangalore, Chennai and Pune, due to resurgence of COVID-19 cases.

- Gradual relaxation of restrictions of varying degree across different cities.

- India government pledged to stimulate the economy through a ₹20 trillion (US$265 billion) special economic package, which is equivalent to 10% of India’s GDP.
## Impact of COVID-19

Safeguarding the health and safety of all staff, tenants and parkites in our properties remains our highest priority. We are closely monitoring the evolving situation and will take appropriate actions to protect our tenants’ premises and their employees.

### Current Assessment of Impact on Business

Lockdowns re-imposed on several cities. The situation is evolving and we will continue to assess the financial impact of COVID-19 on the business.

The weak economic conditions brought about by COVID-19 could have an adverse impact on the performance of our properties. We have made higher provision for doubtful debts in 1H FY2020 on prudence basis.

Collections for office rents remain healthy with 99% of April, 95% of May and 92% of June billings collected. No office rental rebates given despite requests from tenants. However, we have engaged these tenants to work out a solution on a case to case basis.

We have committed to rent reliefs primarily to retail tenants. The impact on our retail tenants at Park Square Mall (PSQ) will be high due to the retail mall closure from 14 March to 7 June and 14 to 21 July. PSQ’s 1H FY2020 net property income was -$S0.3m, down 128% YOY.

Limited construction works in some projects have resumed but are affected by prevailing labour crunch. Overall impact on completion timelines is being ascertained.

### Current Operations

- With the lockdown re-imposed on several cities, most staff and tenants are still working from home except for operation-critical roles. Park population remains below 10% across all parks.
- Our parks remain open for essential services to support our tenants’ critical IT & ITES operations.
- PSQ was open between 8 June to 13 July, and from 22 July onwards.

### Preparedness

- We have in place necessary precautionary measures to ensure the safety of our parks and tenants including enhanced hygiene measures, social distancing, active tenant communication to raise awareness and contactless technologies (contactless lift activation, common facilities etc.)

Capital management
Capital management

Currency hedging strategy

**Balance sheet**
- Trustee-Manager does not hedge equity.
- At least 50% of debt must be denominated in INR.

**Income**
- Income is repatriated semi-annually from India to Singapore.
- Trustee-Manager locks in the income to be repatriated by buying forward contracts on a monthly basis.

Funding strategy

- The Trustee-Manager’s approach to equity raising is predicated on maintaining a strong balance sheet by keeping the Trust’s gearing ratio at an appropriate level.
- Trustee-Manager does not borrow INR loans onshore in India as it costs less to hedge SGD borrowings to INR-denominated borrowings using cross-currency swaps and derivatives.

Income distribution policy

- To distribute at least 90% of its income available for distribution.
- α-iTrust retains 10% of its income available for distribution to provide greater flexibility in growing the Trust.
